

ML Healthcare

Lee brings over 25 years of experience in serving the long-term care industry where he has served many roles and leadership positions in the operations of skilled nursing facilities and regional operating support. Over his career and years of experience Lee opened several skilled nursing facilities and has developed a strong reputation for leadership and family / community support in the long-term care industry.

Lee has also had responsibility in the oversight of multiple long-term care communities and has been very successful in growing their local leaders and positively impacting their financial success through his strong leadership and impactful interactions.

Lee A. Rivaz, LNFA

Vice President of
Operations

Lee Rivaz serves as Vice President of Operations for ML Healthcare where he oversees the long-term care operations and provides exceptional leadership to the local leaders of ML Healthcare.
